

## Oxy Active liquid

Sterilises your vivarium or aquarium of all possible bacteria, viruses, worms, algae etc. Get at last rid of foul smelling Algae. Prevent re contamination of your animals through worms in the vivarium. Clean your vivarium when you had a bacterial disease before introducing new animals. Contains H<sub>2</sub>O<sub>2</sub> (hydrogen peroxide) No harmful residues left in the vivarium after applying the product.

### REMOVE ALL ANIMALS AND PLANTS BEFORE USING THIS PRODUCT!

#### Dosage and instructions for use

The bottle of 60ml is enough for 0,6m<sup>3</sup> =21,19 ft<sup>3</sup> of water.

Let the water in the vivarium circulate for 3 days with the product.

If there are dry places spray them with the product in the right dilution with water.

After 3 days the product is decomposed into water and oxygen, so there are no harmful residues left in the vivarium.

Now you can introduce the animals and plants again.
